

TPEA Lifter

DISPOSABLE, PORT-FREE INTERNAL RETRACTORS

SIMPLICITY

TPEA Lifter provides a simple, effective solution to create more space during laparoscopic surgery

MAXIMUM EFFICIENCY

TPEA Lifter offers secure, low-profile static suspension without interference of operating instruments or robotic arms

SIGMOID RETRACTION

COST-EFFECTIVE

By eliminating a port, retraction instrument and assistant – TPEA Lifter saves OR time and money

UTERUS AND ADNEXA SUSPENSION

VERSATILE

TPEA Lifter is highly effective for retraction / suspension of all organs and tissue including: uterus, ovaries, sigmoid colon, peritoneum, colon, stomach, gallbladder and bladder

TEMPORARY MESH POSITIONING

REF. NO.	DESCRIPTION	MINIMUM TROCAR SIZE	UOM
TPL5A180-B10	TPEA Lifter – 5cm Needle, 18cm Suture	5mm	10/Box
TPL5X180-B10	TPEA Lifter – 6.5cm Needle, 18cm Suture (for bariatric or thicker abdominal wall)	5mm	10/Box
TPL10A180-B10	TPEA Lifter – 5cm Needle, 18cm Suture	10mm	10/Box
